KNOWLEDGE CREATES CONFIDENCE THAT YIELDS RESULTS

When you choose PIC, you choose expertise and the confidence that comes with it. Our corporate leaders began their careers in the field, gaining the unique wisdom that can only come from hands-on experience. Our available experts and teams reach into the hundreds, each with diverse experience in every facet of the power, transmission and distribution, oil and gas, and process industry. Together, there is nothing we haven't seen – and few things we've yet to solve.

For our customers, we bring certainty that few others can provide.

YOUR “BOOTS ON THE GROUND” SINCE 1988

Founded in 1988 as a contract staffing and consulting company to serve the power industry, PIC Group, Inc. (PIC) built all-star teams to tackle field-level challenges. Through consistent execution, we earned a reputation as a reliable source of highly skilled professionals and world-class provider of project and plant required services.

Developing effective and efficient processes and procedures to perform admirably anywhere, PIC has evolved into a global services provider capable of meeting our customers' diverse needs. The scalability of our offerings range from providing a single resource for a week to providing turnkey contractual O&M services for a multi-year term. The markets we serve include power generation, transmission and distribution, oil and gas, and process.

Marubeni, a Fortune Global 500 company and one of Japan's largest general trading companies, acquired PIC in 2008. After infusing their resources and capital into PIC, we have experienced significant growth and continue to provide the best people, processes and programs to our clients.
