MECHANICAL SERVICES

PIC's mechanical services are performed by some of the world's leading specialists and technicians. Our experience delivers quality projects safely, on time, and within your budget. Services range from boiler maintenance and repair, specialty welding and rigging, to fully managed, turnkey outages.

Projects include access to full-time project managers and superintendents, extended tenure and mandatory OSHA 30 supervision. All tooling and equipment is supplied by PIC and qualified candidates are recruited from an active database of craft personnel across a host of disciplines.
