

GLOBAL O&M SERVICES
SUPPORTED BY THE
PIC / MARUBENI
CORPORATE OPERATIONAL
READINESS CENTER

OPERATIONS & MAINTENANCE

PIC's O&M program allows our clients to achieve the maximum financial and operational goals for their facilities. By implementing a culture that instills strict program adherence and continuous operational improvement, our customers generate superior plant performance, higher profits and increased asset value.

To facilitate this culture, our O&M experts work together with site teams to develop customized programs that focus on maximizing plant reliability and improving efficiencies. To complement these programs, our corporate oversight team stays engaged with each facility's staff to ensure continued compliance with all facility, environmental, health and safety requirements.
